

What would you do to inspire your child's creativity?

What would you do if a cow barked like a dog? If a bird stole your mail? If a honeybee grew to the size of a house?

What??? is a book of many possibilities. It presents humorous questions in rhyme and inspires children to answer creatively. Each page offers a new opportunity to ...

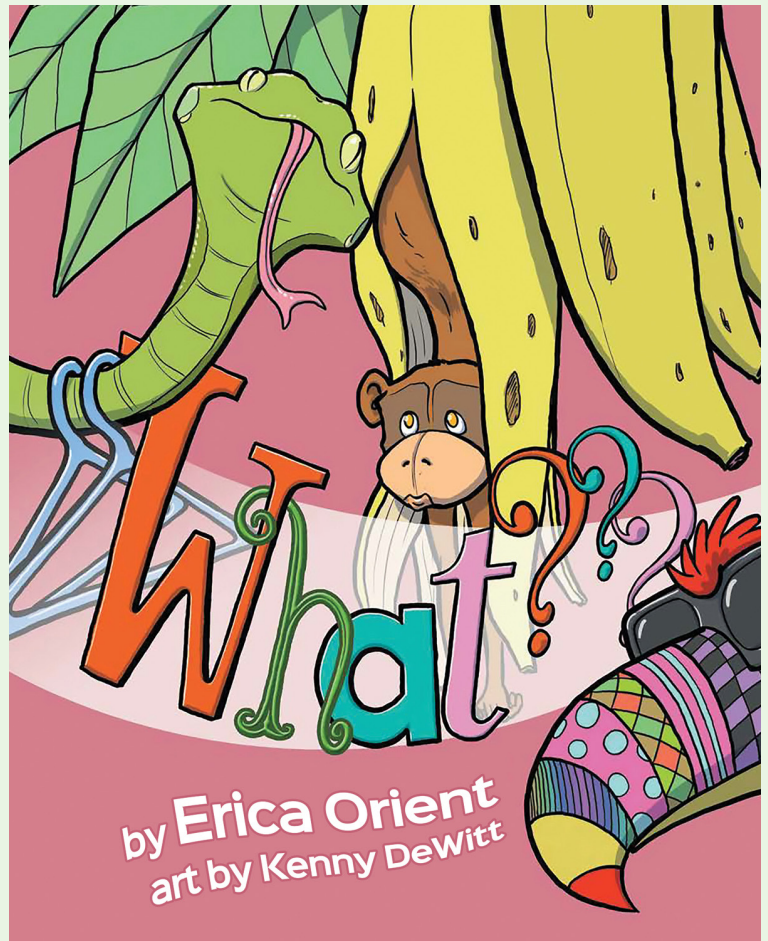

- Solve problems
- Predict outcomes
- Create narratives
- Think critically

Adults and kids alike will enjoy the colorful illustrations and adorable animal characters in clever “what if?” situations. With enough fun to explore over and over again, **What???** will help inspire a lifelong passion for reading.

Erica Orient began her career as an occupational therapist before opening a toy store, drawing upon her knowledge in hope of helping children with their physical and cognitive growth. As a mother of four, she strives to see her children grow every day in their love of reading, writing, and imagination. This book is for them, and for all children everywhere.
